Over the last couple of weeks an overall evaluation of the international pandemic situation has been executed by both I.I.A. and I.F.L in the light of the 6th Indiacaca World Championships that were scheduled to take place in Luxembourg in August this year at the facilities of Coque Luxembourg Kirchberg.

Although vaccination campaigns have started all around the world, a return to a normal conditions will still take many months.

No indiacaca competitions have taken place for many months making it impossible for our affiliated national Federations to start the selection and training process for National Teams.

Limited number of spectators, social distancing and other restrictions will likely still be applicable during 2021.

Considering the above it has been jointly decided to postpone the event in Luxembourg until August 2022.

We hope we can count on your understanding of this difficult decision.

Stay healthy and looking forward seeing you all soon again.
